Harris & Bruno International Promotes Doug Corbett to Service Manager!

Dec., 2006 --- We are pleased to announce that Mr. Doug Corbett has been appointed as Service Manager for Harris & Bruno International. With nearly 20 years experience of service within the offset industry, Doug brings with him a tremendous edge for exceeding our customer's expectations. Doug was initially hired by Harris & Bruno in the capacity of a field service project specialist but quickly applied his expertise and leadership qualities in a manner that helped him stand out in the eyes of management. Shortly thereafter, the position of Field Service Manager became available leaving for an easy decision in promoting him. "Doug's broad range of experience, leadership qualities, and shared philosophy on service was displayed from day one with our company. When the management position became available we immediately presented the opportunity to Doug, who we undoubtedly felt was the most qualified candidate, hands down!" replied Tom Davis, Vice President of Operations.

Doug Corbett brings with him seven combined years of experience working as a field service technician for Dahlgren Canada, Dahlgren International and Dahlgren USA. Another eight years of his career was spent as the Vice President of Technical Sales with MMT Manufacturing Corporation in Georgia. Lastly, his previous career move prior to being recruited to Harris & Bruno was as the Vice President of Operations with Dahlgren Enterprises LLC. All of this experience and knowledge has helped to create a well-rounded leader that has quickly become an asset to the Harris & Bruno International organization. We are delighted to welcome Doug Corbett aboard as our new Field Service Manager and confident in his continued success!

Harris & Bruno International is the leading supplier of printing & coating solutions to the offset and flexographic industries.
