

Zoom Past the Competition

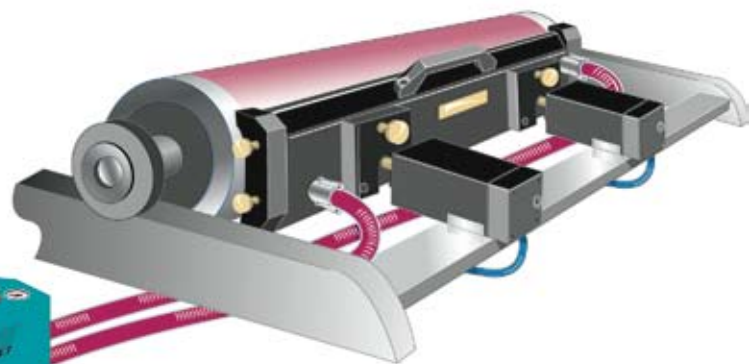

Harris & Bruno's Standard Chambered Doctor Blade System offers printers the latest technology for greater quality, versatility, and speed.

Rapidly improving printing technology translates into customers demanding greater quality and variety—a trend now reaching the narrow-web and envelope market. Harris & Bruno standard chambered doctor blade systems dramatically

improve print quality with cleaner type and better ink laydown. Now you can increase press speed without worrying about ink slinging. Our complete solution, from ink kit to anilox roll, also makes clean up easier.

Best of all, it's 100% guaranteed.

- Gives you the capability to do high viscosity, water-based and UV applications
- Substantially increase press speed without ink slinging
- Compensation for blade wear saves money on blade replacements
- Pneumatic controls eliminate need for electricity
- Upgradeable platform protects your investment
- Risk-free choice with a multi-year warranty and retrofit guarantee

The Harris & Bruno Ink Delivery System (IDS) provides:

- Easy clean-up of hoses, pump, chambers, and anilox roll
- Excellent speed control, eliminating excessive pressure in chambered doctor blade systems
- No electricity required; uses low air volume
- Reliability—no stalling at low run speeds
- Compact and modular design saves space
