

Harris & Bruno International's Cell Solution™

A Revolutionary Way to Clean Anilox Rolls and Textured Back Cylinders

Harris & Bruno International's revolutionary **Cell Solution™** is making an impact on how printers clean their anilox rolls and textured back cylinders. Today's printer understands the value of printing with clean rolls and cylinders but usually only after dealing with dirty ones. Don't let this potential problem keep you from experiencing consistent coating practices each and every job or force you to replace your anilox rolls sooner than necessary.

Take a look at some of the time-tested benefits **Cell Solution** has to offer:

Benefits of Cell Solution ...

- ◆ May increase anilox roll life expectancy by as much as 5 years!
- ◆ Clean rolls & cylinders help facilitate consistent coating thickness.
- ◆ For use with UV, water and solvent inks & coatings
- ◆ For use in & out of the machine
- ◆ For use with ceramic and chrome rolls
- ◆ Environmentally safe, easy to use and effective
- ◆ Backed by our iron-clad, satisfaction guarantee!
