

ExcelCoat

Automated Offline Coating System

Harris & Bruno International has revolutionized offline coating by introducing the ExcelCoat, a workhorse of a machine that can replace multiple UV coaters and meet modern production speeds. For printers already UV coating, the ExcelCoat will elevate your capabilities. For printers who don't have UV, this will give you the option. The ExcelCoat's myriad of automated adjustments gives printers an unparalleled ability to coat a wide assortment of print variables. Also, Harris & Bruno's renowned quality and service guarantees years of dependability!

ExcelCoat

Coater

- Eccentric bearings for roller positioning
- State-of-the-art stepper motor adjustment on all rolls
- Forward nip and reverse nip metering roll
- 2-reservoir pumping system with auto valve switching
- Linked PLC control system throughout all the components

UV System and Conveyor

- Full-length vacuum system with "Even Flow" technology
- Winter/summer mode
- Pneumatically controlled access to UV chamber
- Sealed lamp cooling with adjustable air flow
- UV reflectors use angles to specifically direct light and improve curing
