

Harris & Bruno International ExcelCoat Uptime Kit

Critical time-saving parts, in-stock when you need them

Harris and Bruno International ExcelCoat Uptime Kits are crucial to maintain your necessary throughput and avoid any unnecessary downtime. Avoid the waiting game and the high costs associated with overnight shipping by having parts on-hand when you need them. Our tailored and customizable Uptime Kits will help you increase your run time while decreasing the chances of being stuck in a rut.

The Uptime Kit Advantage

- **Have parts in-stock when you need them the most**
- **Avoid costly downtime and overnight shipping charges**
- **Solve breakdown issues over the phone without the need for a service visit**
- **Be back up and running quickly**
- **Free part replacement for the first year after purchasing your Uptime Kit**
(One time use per part)

CleanCell PRO Anilox Cleaning Kit Add-On

H&B's all-in-one, no scrubbing, preventative maintenance package for anilox rolls. A quick 15 minute clean when shutting down for the week will help prevent plugging and increase your uptime.

Options for Every Coater

Tier 1- Consumables

- Blades and seals for everyday applications
- Great for switching between UV & AQ coatings
- Standard consumables on hand for backup

Tier 2- Crucial Parts

- Prevent downtime due to critical part failures
- Avoid costly overnight shipping charges
- Lamps, belts, gaskets, pumps, and fuses
- Option to add-on a CleanCell Pro Anilox Cleaning Kit

Tier 3- Master Kit

- Critical feeder, stacker, & corona unit components
- Includes all Tier 1 and Tier 2 components
- Avoid costly overnight shipping charges
- Greatest return on investment
