

H&B Pre-Cut Metering & Containment Blades

Increase your production throughput and efficiency!

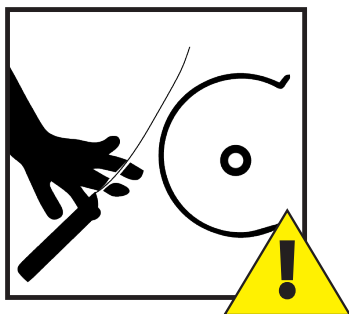

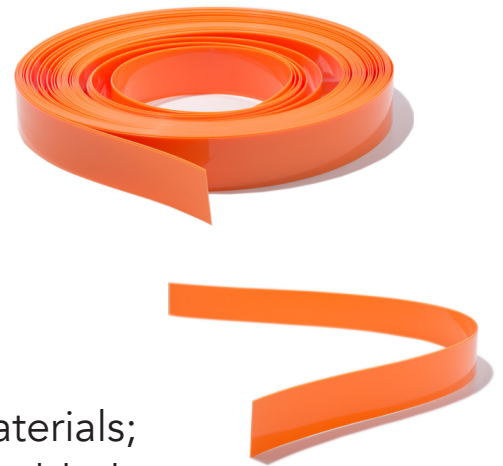

Harris & Bruno is now offering Precision Pre-Cut Metering and Containment Blades for your Chamber System! Your blades will come cut-to-size for your press. Let us take care of the special handling, measuring, and accurate cutting. Every blade is ready to use right out of the box!

PLASTIC | MICRO-STEEL | PLASTIC STEEL | ONYX | ESTERLAM | ORANGE | PROFLEX | POLY | FIBERGLASS

Less Time Cutting is More Time Running!

Your time is valuable. The less time you spend measuring and cutting blades will increase your production throughput and efficiency. Take the precisely cut blade right out of the box and install directly onto the chamber. It's that simple.

Perfect Cuts Every Time!

Cut down on your wasted materials; no more under-cut or over-cut blades.

Safety First!

Reduce minor cuts and lacerations in the work place. Let us worry about the sharp edges.
